| 10. studies  | <u>Challenge Words</u> |
| 11. studied  | 19. obeyed             |
| 12. studying | 20. worrying           |

## Reading

Our next reading skills lesson is on identifying fact and opinion. A fact is a statement that can be proven to be true. Opinions show what a person or group believes, thinks, or feels about something or someone.

## Science

Next week, we will begin a unit on matter. We will review the states of matter: solid, liquid, gas, and plasma. We'll also be making some predictions and investigating how water changes from a liquid to a solid (freezing), and back again (melting), or from a liquid to a gas (evaporation), and back again (condensation) as the result of temperature changes. We'll also discover that some changes caused by heating and cooling can be reversed and some cannot.
