

# 14th Annual Pennies for Technology

March 5th-29th

It's that time of year again. Please send in your pennies for technology for our school. Windsor Elementary is having its 14th annual *Pennies for Technology*. This annual competition between classes will run from March 5th until March 29th. Monday March 5th will kick off this event. The last day to contribute to class totals will be Thursday March 29th. Each classroom has a container for their pennies. Students bring pennies from home and deposit them into their classroom container. Students from other classrooms can sabotage classrooms by adding silver coins or dollar bills to any classroom's container. Grandparents, aunts, uncles, and neighbors hand your loved ones your change and help them win. This year we would like to purchase tablets for the classrooms. Please be generous and help out our school.
